A man involved with the students and our school . . . concerned for others through his administering. A man who cares. We proudly dedicate the 1971 GLADIUS to . . .

Mr. Walter Allen

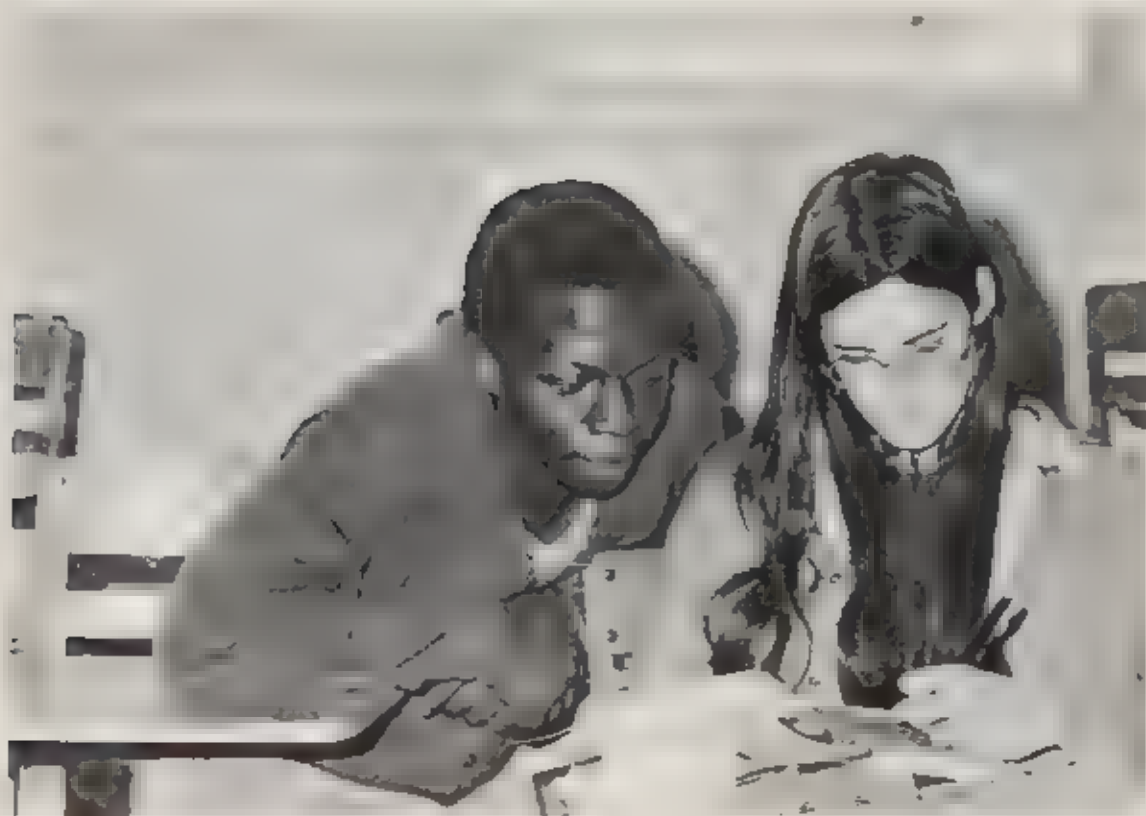

One plus one equals one . . . this is mathematically impossible, but Athens High and Burney Harris were consolidated under the name Clarke Central High School. Throughout this first year, the students, faculty, and administrators have worked to unite the two schools. This was a year of unification.

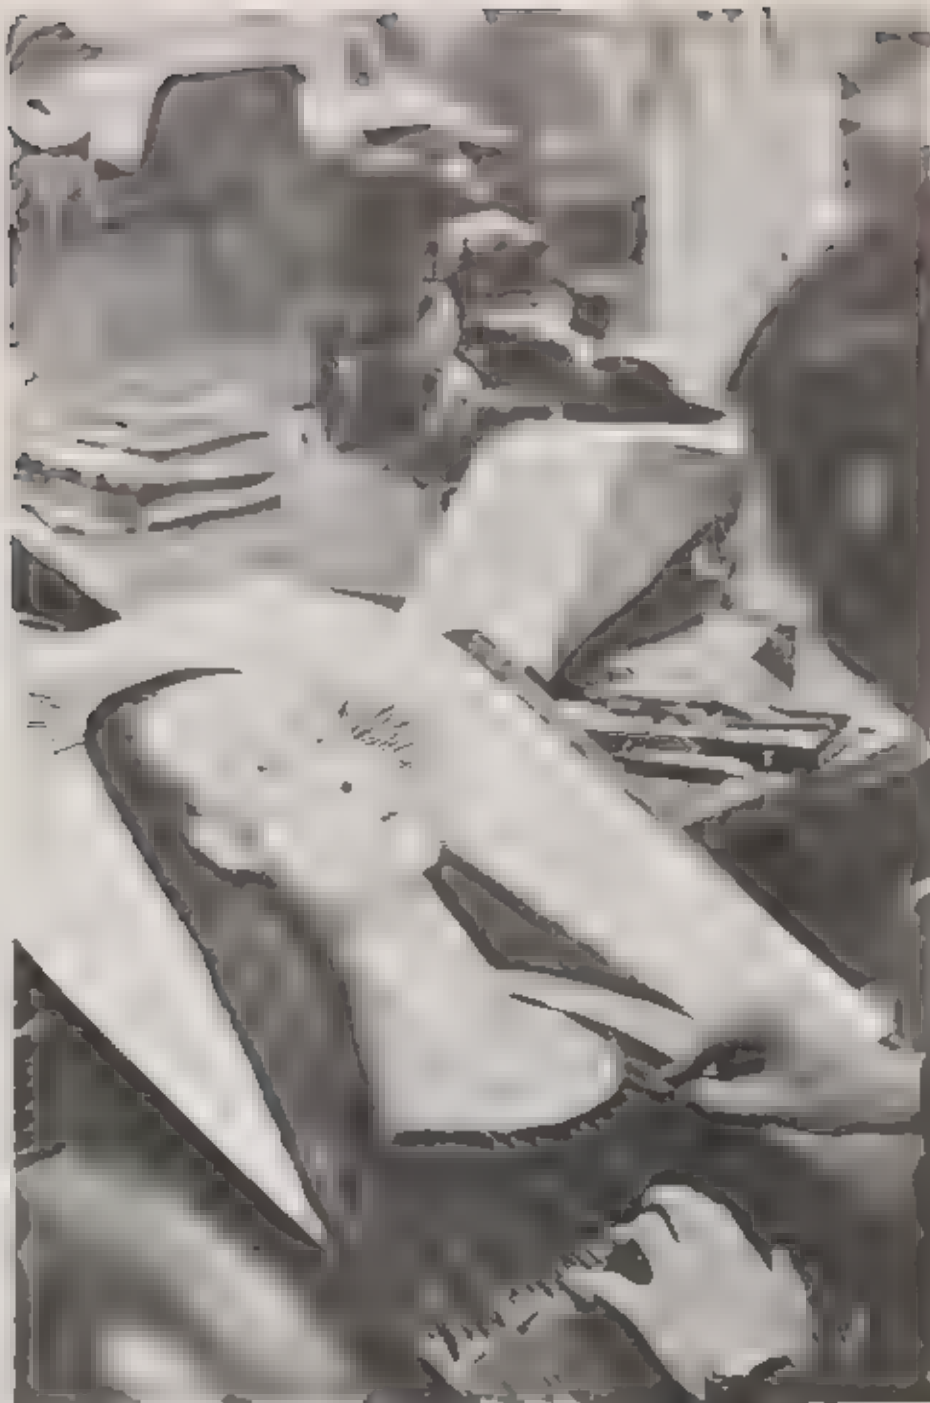

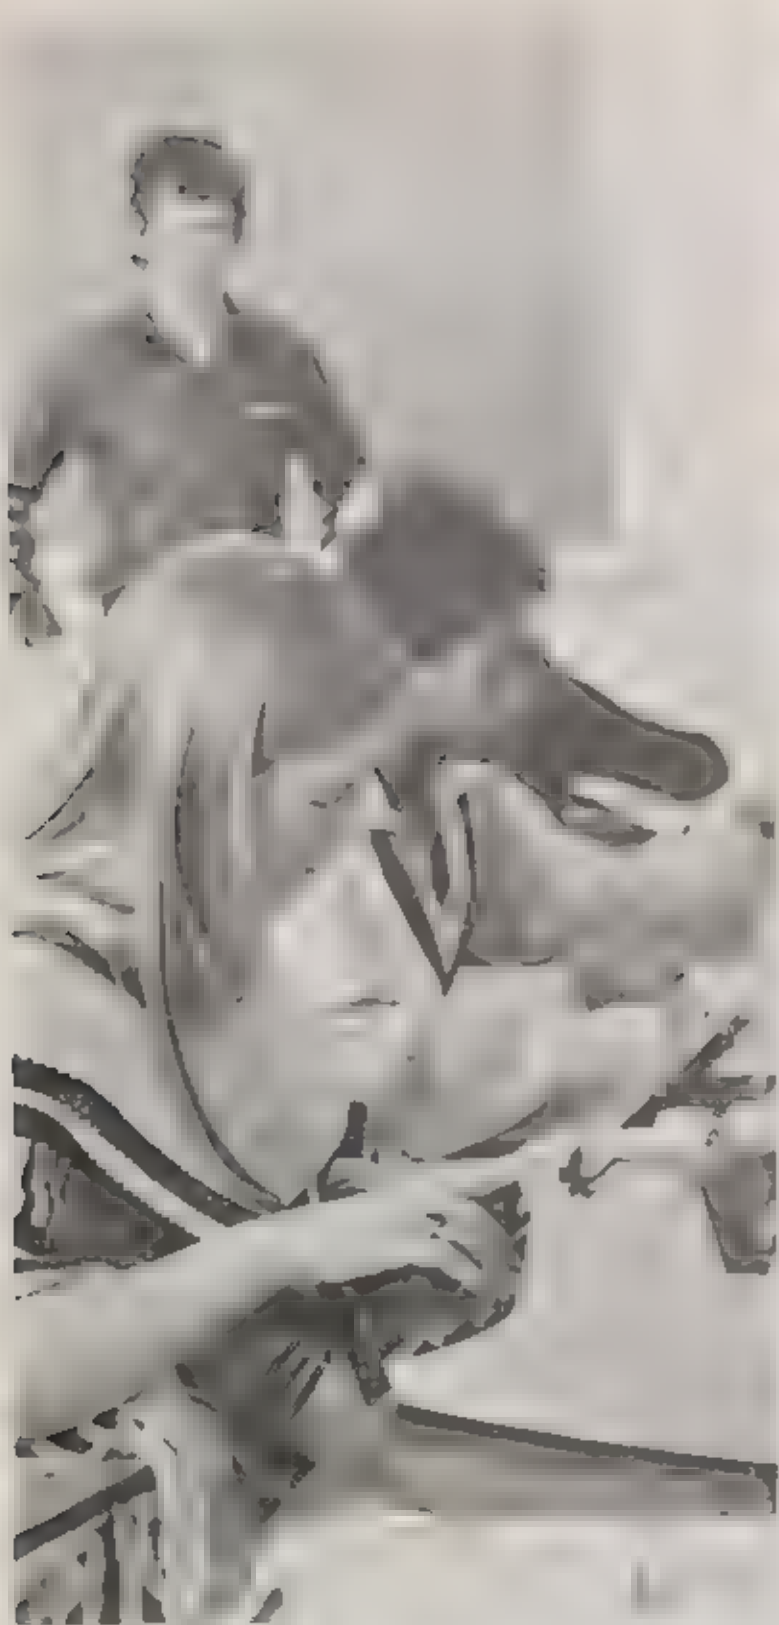

In our individual and group efforts we learned to work together and accept the challenges. With all of the activities that we were a part of this year, we have become wiser.

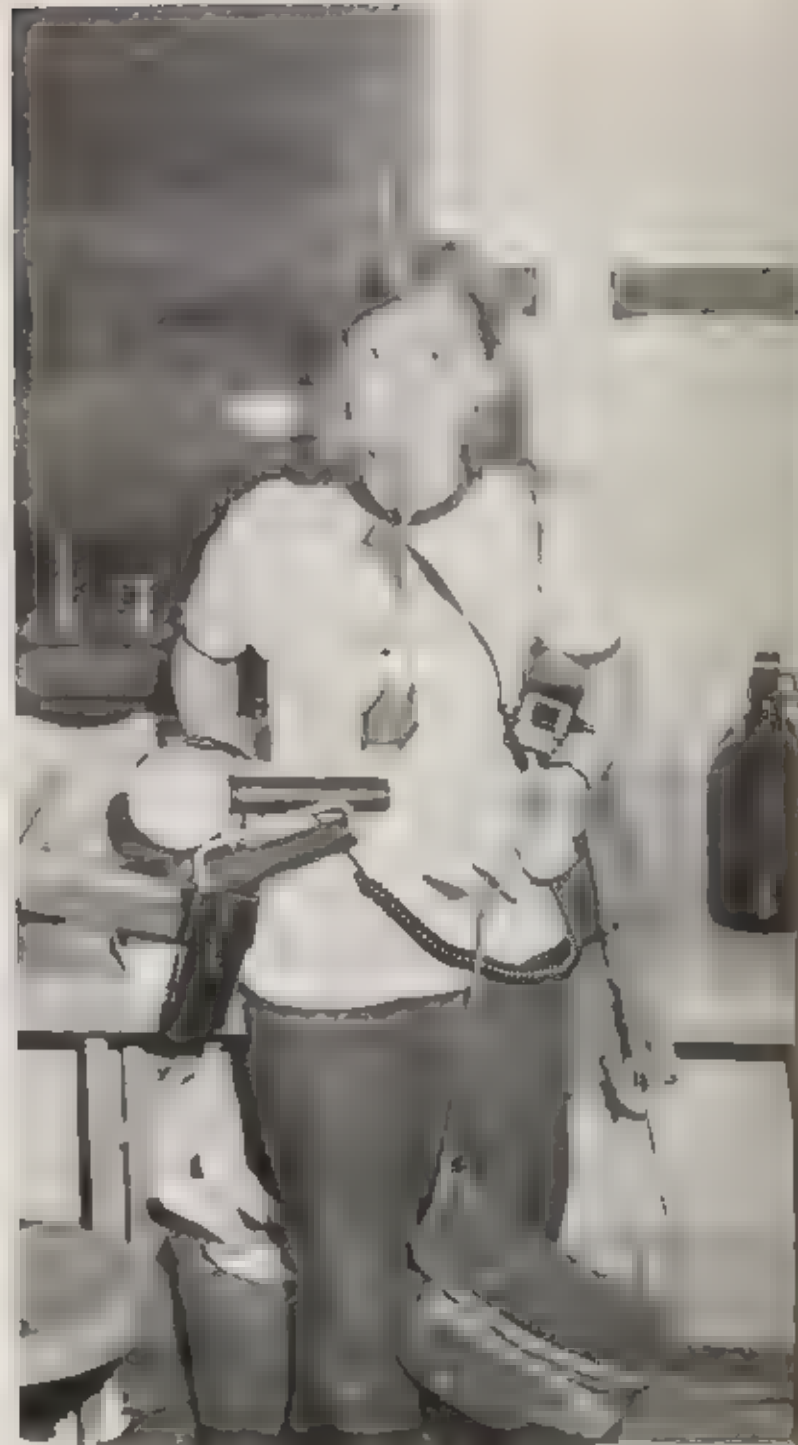

Through our victories and defeats we learned the value of team work. With the spirit that prevailed in us, we cheered the teams on to success. Spirit is contagious.

We express ourselves in a variety of areas because we believe in the right of individual self-expression.

One plus one equals one . . . this was the year of the beginning.

"Memory is the lone sentry guarding the
reality of the past
And the possibility of the future.
Beyond the present, that vague set of
fleeting impressions,
We can only speculate.
But with that cerebral phenomenon of
memory, our speculations,
Once mere guesses
Can send us afar."

The fleeting glimpses of a year's functions
evolve into treasures for a lifetime. We are
the substance of memories. Without us,
there would be no memories to look back
upon. A tear shed at a beauty pageant, or
a joyful triumph over a leading rival would
only result in half forgotten dreams. We
recall the past and project the future. We
are Activities

This school year has been a time of changes — a time for reshifting our values. With these changes we have started a new tradition that the classes to come will follow.

When we began this year there were uncertain thoughts and dreams . . . but with our common goal of gaining knowledge we achieved these dreams. But now all we have is a memory . . . reminiscences of things we will soon forget or always treasure.

The end of the school year presents us with another time of change. For seniors it is the end of high school and with graduation, we go on to new and different ways of life. This year has helped each of us to better cope with the challenges and frustrations of change. We go — the first graduating class of Clarke Central High School — Class of 1971.
